

1 OF ONLY 9 HOSPITALS

in the United States with heart attack survival
rates better than the national average

When it comes to your heart, know your numbers. It's about more than just good and bad cholesterol. Knowing where to go for your cardiovascular care is key to a healthy heart. At Lahey Clinic, our commitment to delivering the highest quality patient care is something we've been practicing for more than **80 years**. And you know what they say about practice.
