

# Our program fosters friendships

*that transcend cultural boundaries.*

At the heart of our mission, Cultural Care Au Pair is as much an exchange program as it is a childcare program. Since 1989, we've successfully placed more than 55,000 au pairs from Europe, Australia, Mexico, Central America, South America and South Africa in homes across America.

As a Cultural Care host family, you get more than just flexible and affordable childcare. You enjoy an enriching cultural experience for the whole family. A Cultural Care au pair can open a child's mind to the unique customs and traditions of another country—while at the same time opening his or her heart to a lasting, international friendship.

Beyond the exchange year, many of our host families continue to keep in touch with their au pairs through emails, letters and even visits to an au pair's home country. And each year, more than 70 percent of our host families return to welcome new au pairs into their homes, creating a network of rewarding friendships around the globe.

*When you're ready to give the world to your family, Cultural Care Au Pair is ready to help.*

Thousands of Cultural Care Au Pair host families have made lasting friendships with au pairs year after year. To meet some of them, please visit us online: [culturalcare.com](http://culturalcare.com).

**As America's leading au pair program for more than 15 years, Cultural Care offers flexible, highly-qualified care for your children at a price you can afford.**

"Our family started hosting Cultural Care au pairs in 1997. Since our first au pair arrived from Germany, we have shared our lives with five amazing women from around the world. Even though our kids have outgrown the program, we still maintain close ties with our former au pairs. On a recent trip overseas, we visited three of them. It was a thrill to reconnect and to feel so welcomed in a foreign country. Our Cultural Care Au Pair experience was a wonderful one and we have made some friends for life."

## **What do your children gain from international friendships?**

- An appreciation for other cultures and customs
- Foreign language skills
- Exposure to games, songs and crafts from around the globe
- Pride for their own country and way of life
- Interesting people and places to visit when they are old enough to travel

"I love that my children are being exposed to so many different cultures. Each au pair brings her own unique perspective to our household and is special in her own way. We have grown attached to all of our au pairs and, once they go back home, make it a point to keep in touch through phone calls, emails and letters. Emmet doesn't ever want to let his au pairs leave, but inevitably, he loves the next one just as much!"
